+386 5 99 74 658

## ADDRESS:

Prešernova 18  
2250 Ptuj

## WHAT I WANT TO GET OUT OF THE NETWORK:

- To gain and disseminate knowledge about smart specialisation integration in the local environment;
- to integrate good practices of smart specialization further in the region;
- to connect with other participating organizations for potential future designing and implementing of international projects;

## WE ARE THE ORGANIZATION THAT:

- aims to enhance the development of sustainable energy in the Spodnje Podravje region through the realization of projects, studies, documents;
- helps the municipalities to find out the financial instruments to realize projects and investments in the energy sector;
- supervises the implementation of the projects and transfers sustainable energy technologies from EU universities, institutes, companies to the local level in order to find appropriate, sustainable and economically feasible measures to reduce the energy consumption, to increase the energy efficiency and the use of renewable energy;
- has a strong cooperation is established with other Slovenian Local Agencies;
- coordinates in cooperation in implementing of Interreg in Horizon international projects;
