WHAT I WANT TO GET OUT OF THE NETWORK:

- exchange of the information;
- processing data and using them into strategic documents and projects;

WE ARE THE ORGANIZATION THAT:

- is focused on creation of analyses, concepts and strategies, support of education for labour market, development of cities and towns, development of transport infrastructure, activities in the environmental policies and development of waste management;
- is taking care of our clients: regional and local authorities;
- specializes in large datasets, unbiased tailor made reports that can be ordered, information services;
- has strong position among municipalities good cooperation with many public sector organizations;
- is experienced with Interreg central Europe and Interreg Danube projects;
