WHAT I WANT TO GET OUT OF THE NETWORK:

- to gain new knowledge and new relations which will help start new projects;

WE ARE THE ORGANIZATION THAT:

- is specialized in: new technologies, advising in innovation process and connecting business, public sector and NGO's around new, interesting projects;
- the main target are: small and medium companies, educational system and youth;
- has almost 30 partners from all sectors: public, business and NGO's;
- creates new ideas connected with business and education - we are developing robotics in Poland: we have participated in creating first Polish robotics FRC team - „Spice Gears”;
- organizes robotic tournaments for kids and youth in Poland and engage in these initiatives business sector;
- has good relations with public, business and NGO's sector;
- has knowledge about financing new projects, gaining money from EU;
- is experienced in international activities;
