ADDRESS:

Koroška Cesta 175
Kamnica

WE ARE THE ORGANIZATION THAT:

- is specialized in traditional timber rafting on Slovenian part of the Drava river and through its preservation keeps a hundred of years old tradition alive;
- presents traditions of timber building and timber rafting to general public, local and foreign, and puts a great emphasis on teaching young people about traditional techniques of timber building and practical skills of timber rafting;
- is a member of International Association of Timber-Raftsmen, an association of European Timber-Raftsmen organizations;
- is the 3rd oldest amateur society in Slovenia, with more than 140 years of existence, as successor of the beautification society, so the arrangement of the natural environment in the local area is also one of our major missions;

WHAT I WANT TO GET OUT OF THE NETWORK:

- cross-country collaboration;
- exchange of good practices;
- new contacts;
