ADDRESS:

Via Dante Alighieri, 93
13100 Vercelli

WHAT I WANT TO GET OUT OF THE NETWORK:

- to promote cluster collaboration between the regions and initiate new contacts;

WE ARE THE ORGANIZATION THAT:

- is one of the 7 Innovation Clusters of the Piedmont Region and operates in the Energy and Clean Technologies field. The main technological and operative areas are energy and energy efficiency, water resources, the circular economy, climate change for infrastructures and distribution networks, sustainable mobility and clean solutions;
- aims at supporting its members in the development of their innovation path, through the supply of services, technical and methodological support and dedicated infrastructure;
- is currently composed of more than 250 members, small and medium-sized enterprises, innovative start-ups, public and private research bodies and large enterprises;
- participates in international networks and more than 40 European projects over the course of past programs, has created a network of relationships with Clusters, research bodies and national, European and International level innovation actors;
