WHAT I WANT TO GET OUT OF THE NETWORK:

- meeting new Companies and Entities and the development of new relationship, which would be useful for future cooperation in transnational projects;
- to learn new methodologies and tools in order to help enterprises to tackle challenges related to the transition to a smart approach to the business;

WE ARE THE ORGANIZATION THAT:

- operates in the following areas: design industrial, digital, communication, and product, new materials, scouting and technology transfer, startups support, marketing & communication, and more;
- is also a Technology Transfer Centre certified Industry 4.0 by Unioncamere;
- offers its services towards: SMEs, Institutions, associations, students etc.;
- has been able to double the revenues from activities with enterprises in 3 years;
- operates with a multidisciplinary approach and through an intersection of skills in different fields: design, new business, innovative materials and social innovation;
- has an international approach in all its activities;
