ADDRESS:

Czartoryskich 8 Street
24-100 Puławy

WE ARE THE ORGANIZATION THAT:

- is the largest and the oldest research-development centre in Poland, conducting agricultural studies under the supervision of the Ministry of Agriculture and Rural Development;
- has broad range of activities comprises crop production, soil science and fertilisation, as well as recognition and protection of agricultural areas against various forms of degradation;
- has a number of scientists engaged in working also with industries by assessing the effect of agriculture, industry and urban-industrial agglomeration on the environment;

WHAT I WANT TO GET OUT OF THE NETWORK:

- establishing contacts with representatives of science but also business to develop joint projects or exchanges of a scientific or commercial nature;
